

Summer 1 Homework 2026

Choose at least one option from these homework activities and hand it in to Mrs McGann, by Friday 22nd May, for us to celebrate in Assembly.

World Art day

Can you find out about a famous artist and create a piece of artwork inspired by their work?

Could you try to create nature art, a sculpture or digital art?

St George's day

We celebrate St George's day on April 23rd. Can you create a Knight's shield, an England flag or a 3D model of a dragon? What can you find out about the patron saint of England?

Owls

Can you find out about these nocturnal birds? How many species of owl can you name? You could create an owl collage, texture painting or puppet.

Hedgehogs awareness day

What can you find out about these nocturnal mammals? Can you create a story, fact sheet or a 3D model?

Nature Walk

It's fun to be outside at this time of year. You could go for a walk and take a magnifying glass, a container for collecting treasures, a camera and a notebook for a nature journal.

Can you try a scavenger hunt and collect items such as feathers, stones, leaves and sticks? How about making tree bark rubbing or building (and taking a photograph of) woodland dens.

Telling the time

Create your own paper plate clock to practise telling the time.
