

Autumn 1 Homework 2025

Choose at least one option from these homework activities and hand it in to Mrs McGann, by 17th October, for us to celebrate in Assembly.

The Solar System

 **Your Mission:**
Create a 3D model of the 8 planets in our solar system.

Your mission: **Create a collage picture of SPACE!** Be as creative as you want! Mix and match materials to build your very own universe.

Write a space adventure themed poem or story. Imagine you're an astronaut, an alien, or even a talking spaceship zooming through the stars.....

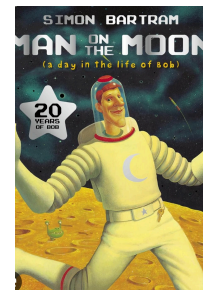

Space Rocket 🚀 ✨

Can you make your own space rocket? You could use a cardboard roll or a plastic water bottle.

Your mission: Design and build a 3D model of a **crazy alien** from another planet!

Will it have 1 eye or 10, 3 arms or wings, antennas or tails? — it's totally up to you! 🌟

Can you visit the library and find a non fiction space book or a space story?

Can you find out some cool facts about Neil Armstrong and create a fact file about him?
